

Vacuum-Packed Furniture Guide

Quick setup

1

Prepare the room

Move the box to the room where your furniture will be used.

2

Unbox & unroll

Remove the item from the box and gently unroll it on a clean, dry floor.

3

Open carefully

Use a disposable safety knife to open the outer plastic. Keep the blade away from the fabric.

4

Let it expand

The furniture will start expanding immediately. Fluff gently. Full recovery may take up to 72 hours.

Recovery & care

A few important notes after opening

Your furniture starts expanding as soon as it is opened. Full recovery may take up to 72 hours.

1 Ventilate the room

Keep the room dry and well ventilated during recovery.

2 Smooth the fabric

Light wrinkles may appear after opening. Smooth the fabric gently by hand. Most wrinkles relax within 72 hours.

3 Connect sections

Use the supplied connectors, if applicable to your model.

4 Keep it dry

Place the furniture on a dry floor and avoid long exposure to damp areas.
